## Abstracts

A residential garage is a walled, roofed structure for storing a vehicle or vehicles that may be part of or attached to a home ("attached garage"), or a separate outbuilding or shed ("detached garage"). Residential garages typically have space for one or two cars, although three-car garages are used. When a garage is attached to a house, the garage typically has an entry door into the house. Garages normally have a wide door which can be raised to permit the entry and exit of a vehicle, and then closed to secure the vehicle.
