Abstracts

Each automobile is fitted out with a rearview mirror. Two rearview mirrors are situated externally on the vehicle, while a rearview mirror is situated inside the vehicle wherever it is attached on the front windshield of the vehicle. Most of the passenger cars are prepared with vanity mirrors, placed at the sun visor, however vanity mirrors do not exist in LCVs and M&HCVs. There is an increasing inclination where straight mirrors are progressively getting substituted by auto-dimming mirrors and smart rearview mirrors.
