Abstracts

According to our (Global Info Research) latest study, the global Automotive Op Amps market size was valued at US$ 234 million in 2024 and is forecast to a readjusted size of USD 396 million by 2031 with a CAGR of 7.9% during review period.

Operational amplifier is an important component of the analog signal chain and are often an important part of the interface between the sensor and the ADC. Common analog op amp functions include gain, buffering, filtering, and level shifting. Automotive-grade op amps meet the requirements of extreme reliability and quality demanded by the market. Supporting temperature ranges that can go up to 150°C.

Automotive is a key driver of this industry. According to data from the World Automobile Organization (OICA), global automobile production and sales in 2017 reached their peak in the past 10 years, at 97.3 million and 95.89 million respectively. In 2018, the global economic expansion ended, and the global auto market declined as a whole. In 2022, there will wear units 81.6 million vehicles in the world. At present, more than 90% of the world's automobiles are concentrated in the three continents of Asia, Europe and North America, of which Asia automobile production accounts for 56% of the world, Europe accounts for 20%, and North America accounts for 16%. The world major automobile producing countries include China, the United States, Japan, South Korea, Germany, India, Mexico, and other countries; among them, China is the largest automobile producing country in the world, accounting for about 32%. Japan is the world's largest car exporter, exporting more than 3.5 million vehicles in 2022.

This report is a detailed and comprehensive analysis for global Automotive Op Amps market. Both quantitative and qualitative analyses are presented by manufacturers, by

+357 96 030922

region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Automotive Op Amps market size and forecasts, in consumption value ($ Million), sales quantity (K Units), and average selling prices (US$/Unit), 2020-2031

Global Automotive Op Amps market size and forecasts by region and country, in consumption value ($ Million), sales quantity (K Units), and average selling prices (US$/Unit), 2020-2031

Global Automotive Op Amps market size and forecasts, by Type and by Application, in consumption value ($ Million), sales quantity (K Units), and average selling prices (US$/Unit), 2020-2031

Global Automotive Op Amps market shares of main players, shipments in revenue ($ Million), sales quantity (K Units), and ASP (US$/Unit), 2020-2025

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Automotive Op Amps

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Automotive Op Amps market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Onsemi, STMicroelectronics, Analog Devices, Diodes, Texas Instruments, ABLIC, Renesas Electronics, Nisshinbo Micro Devices, ROHM, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Automotive Op Amps market is split by Type and by Application. For the period 2020-2031, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

- Single Channel
- Dual Channel
- Four Channel

Market segment by Application

- Automotive
- Industrial Control System

Major players covered

- Onsemi
- STMicroelectronics
- Analog Devices
- Diodes
- Texas Instruments
- ABLIC

+357 96 030922
info@marketpublishers.com

Renesas Electronics

Nisshinbo Micro Devices

ROHM

Market segment by region, regional analysis covers

North America (United States, Canada, and Mexico)

Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Japan, Korea, India, Southeast Asia, and Australia)

South America (Brazil, Argentina, Colombia, and Rest of South America)

Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

The content of the study subjects, includes a total of 15 chapters:

Chapter 1, to describe Automotive Op Amps product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Automotive Op Amps, with price, sales quantity, revenue, and global market share of Automotive Op Amps from 2020 to 2025.

Chapter 3, the Automotive Op Amps competitive situation, sales quantity, revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Automotive Op Amps breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2020 to 2031.

Chapter 5 and 6, to segment the sales by Type and by Application, with sales market share and growth rate by Type, by Application, from 2020 to 2031.

+357 96 030922
info@marketpublishers.com

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2020 to 2025.and Automotive Op Amps market forecast, by regions, by Type, and by Application, with sales and revenue, from 2026 to 2031.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Automotive Op Amps.

Chapter 14 and 15, to describe Automotive Op Amps sales channel, distributors, customers, research findings and conclusion.
