Abstracts

According to our (Global Info Research) latest study, the global Aviation IoT market size was valued at USD 482.7 million in 2023 and is forecast to a readjusted size of USD 1443.3 million by 2030 with a CAGR of 16.9% during review period.

According to our research, the number of global connected IoT devices was about 14 billion, grew by 18% compared to 2021. The data released by the Office of the Central Cyberspace Affairs Commission shows that, by the end of 2022, China has built and opened a total of 2.3 million 5G base stations. 110 cities across the country have reached the gigabit city construction standards. Gigabit optical network has the ability to cover more than 500 million households. IPv6 scale deployment application is deeply promoted. The number of active users exceeds 700 million, mobile network IPv6 traffic accounted for nearly 50%. The total size of China's data center racks exceeds 6.5 million standard racks, with an average annual growth rate of more than 30% in the past five years.

The Global Info Research report includes an overview of the development of the Aviation IoT industry chain, the market status of Military (Passengers Aviation IoT, Aircraft Operations Aviation IoT), Civilian (Passengers Aviation IoT, Aircraft Operations Aviation IoT), and key enterprises in developed and developing market, and analysed the cutting-edge technology, patent, hot applications and market trends of Aviation IoT.

Regionally, the report analyzes the Aviation IoT markets in key regions. North America and Europe are experiencing steady growth, driven by government initiatives and increasing consumer awareness. Asia-Pacific, particularly China, leads the global Aviation IoT market, with robust domestic demand, supportive policies, and a strong manufacturing base.

Key Features:

The report presents comprehensive understanding of the Aviation IoT market. It provides a holistic view of the industry, as well as detailed insights into individual components and stakeholders. The report analysis market dynamics, trends, challenges, and opportunities within the Aviation IoT industry.

The report involves analyzing the market at a macro level:

Market Sizing and Segmentation: Report collect data on the overall market size, including the revenue generated, and market share of different by Type (e.g., Passengers Aviation IoT, Aircraft Operations Aviation IoT).

Industry Analysis: Report analyse the broader industry trends, such as government policies and regulations, technological advancements, consumer preferences, and market dynamics. This analysis helps in understanding the key drivers and challenges influencing the Aviation IoT market.

Regional Analysis: The report involves examining the Aviation IoT market at a regional or national level. Report analyses regional factors such as government incentives, infrastructure development, economic conditions, and consumer behaviour to identify variations and opportunities within different markets.

Market Projections: Report covers the gathered data and analysis to make future projections and forecasts for the Aviation IoT market. This may include estimating market growth rates, predicting market demand, and identifying emerging trends.

The report also involves a more granular approach to Aviation IoT:

Company Analysis: Report covers individual Aviation IoT players, suppliers, and other relevant industry players. This analysis includes studying their financial performance, market positioning, product portfolios, partnerships, and strategies.

Consumer Analysis: Report covers data on consumer behaviour, preferences, and attitudes towards Aviation IoT This may involve surveys, interviews, and analysis of consumer reviews and feedback from different by Application (Military, Civilian).

Technology Analysis: Report covers specific technologies relevant to Aviation IoT. It

+44 20 8123 2220
info@marketpublishers.com

assesses the current state, advancements, and potential future developments in Aviation IoT areas.

Competitive Landscape: By analyzing individual companies, suppliers, and consumers, the report present insights into the competitive landscape of the Aviation IoT market. This analysis helps understand market share, competitive advantages, and potential areas for differentiation among industry players.

Market Validation: The report involves validating findings and projections through primary research, such as surveys, interviews, and focus groups.

Market Segmentation

Aviation IoT market is split by Type and by Application. For the period 2019-2030, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of value.

Market segment by Type

Passengers Aviation IoT

Aircraft Operations Aviation IoT

Other

Market segment by Application

Military

Civilian

Market segment by players, this report covers

IBM

Cisco Systems

+44 20 8123 2220
info@marketpublishers.com

Microsoft

Wind River

Accenture

Apple

Living PlanIT

Sitaonair

Market segment by regions, regional analysis covers

North America (United States, Canada, and Mexico)

Europe (Germany, France, UK, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Japan, South Korea, India, Southeast Asia, Australia and Rest of Asia-Pacific)

South America (Brazil, Argentina and Rest of South America)

Middle East & Africa (Turkey, Saudi Arabia, UAE, Rest of Middle East & Africa)

The content of the study subjects, includes a total of 13 chapters:

Chapter 1, to describe Aviation IoT product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top players of Aviation IoT, with revenue, gross margin and global market share of Aviation IoT from 2019 to 2024.

Chapter 3, the Aviation IoT competitive situation, revenue and global market share of top players are analyzed emphatically by landscape contrast.

Chapter 4 and 5, to segment the market size by Type and application, with consumption

+44 20 8123 2220
info@marketpublishers.com

value and growth rate by Type, application, from 2019 to 2030.

Chapter 6, 7, 8, 9, and 10, to break the market size data at the country level, with revenue and market share for key countries in the world, from 2019 to 2024.and Aviation IoT market forecast, by regions, type and application, with consumption value, from 2025 to 2030.

Chapter 11, market dynamics, drivers, restraints, trends and Porters Five Forces analysis.

Chapter 12, the key raw materials and key suppliers, and industry chain of Aviation IoT.

Chapter 13, to describe Aviation IoT research findings and conclusion.
