The global Aviation Refueling market size is expected to reach \$ 972 million by 2032, rising at a market growth of 4.2% CAGR during the forecast period (2026-2032).

Aviation Refueling refers to the specialized machinery and systems used to deliver fuel to aircraft safely and efficiently. This equipment is essential for maintaining the operational integrity of various types of aircraft, including commercial airliners, cargo planes, and military jets.

Aviation Refueling can be divided into 3 categories: Mobile Tankers, Hydrant Dispenser and Fueling Cabinets/Skids. Among them, Mobile Tankers Mobile Tankers account for 72.62% of the global market share mainly and this demand is larger.

Aviation Refueling has wide range of applications, such as Commercial and Defense. Commercial Commercial was the most widely used area which took up about 79.72% of the global market size.

Westmor Industries, Garsite, Stokota, Titan Aero Group, BETA Fueling Systems and SkyMark etc. are the key producers in the global Aviation Refueling market. Top 6 took up about 1/3 of the global market. Due to the low entry threshold of the industry, there are many small and medium-sized production enterprises in the market. Some Aviation Refueling companies also participate in this market, making the concentration of this market very dispersed.
