Abstracts

According to our (Global Info Research) latest study, the global Azelamide MEA market size was valued at US\$ 22.66 million in 2025 and is forecast to a readjusted size of US\$ 34.68 million by 2032 with a CAGR of 6.2% during review period.

In 2025, global sales volume of Azelamide MEA is estimated at approximately 143 tons, with the mainstream ex-works price at around USD 154/kg. Gross margin of major manufacturers is approximately 45%-65%.

Azelamide MEA, CAS No. 242132-61-2, is an azelaic acid derivative cosmetic active ingredient, in which MEA refers to the monoethanolamine structure. Compared with traditional azelaic acid, Azelamide MEA offers better water solubility, formulation mildness, and ease of use, making it more suitable for functional skincare and personal care formulations. It is not a conventional acid exfoliating ingredient, but is positioned more as a mild active ingredient for oil control, acne care, brightening, and skin conditioning.

The product is usually supplied in both powder and liquid forms. The powder form is mostly used as a high-purity cosmetic active ingredient, while the liquid form is generally a pre-dissolved or compound ingredient designed for easier formulation addition. It can be used in serum, lotion, cream, gel, scalp treatment, and localized care product. Its core value lies in retaining the advantages of the azelaic acid system in sebum regulation, acne-prone skin care, complexion improvement, and soothing care, while improving formulation compatibility through amidation and the MEA structure, thereby reducing the limitations of traditional azelaic acid in solubility, irritation, and formulation stability.

From a market positioning perspective, Azelamide MEA is a niche but fast-growing high-value cosmetic active ingredient, mainly serving segmented applications such as facial care, scalp care, and body care. As functional skincare continues to shift from single, strongly irritating acid ingredients toward milder, compound, and long-term-use solutions, Azelamide MEA is expected to gain further application potential in brand formulations.

This report is a detailed and comprehensive analysis for global Azelamide MEA market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Azelamide MEA market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global Azelamide MEA market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global Azelamide MEA market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global Azelamide MEA market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/kg), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Azelamide MEA

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Azelamide MEA market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Vevy Europe S.p.A., Beri Pharma, UCUS Biotech, Suzhou Health Chemicals, Suzhou Sunland Pharmatech, ZLEY Guangzhou Biological Research, Puripharma, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Azelamide MEA market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

High Purity (>98.5%)

Regular Purity (95%-98.5%)

Market segment by Form

Powder

Liquid

Market segment by Application

Facial Care

Scalp Care

Body Care

Other

Major players covered

Vevy Europe S.p.A.

Beri Pharma

UCUS Biotech

Suzhou Health Chemicals

Suzhou Sunland Pharmatech

ZLEY Guangzhou Biological Research

Puripharm

Market segment by region, regional analysis covers

North America (United States, Canada, and Mexico)

Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Japan, Korea, India, Southeast Asia, and Australia)

South America (Brazil, Argentina, Colombia, and Rest of South America)

Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

The content of the study subjects, includes a total of 15 chapters:

Chapter 1, to describe Azelamide MEA product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Azelamide MEA, with price, sales quantity, revenue, and global market share of Azelamide MEA from 2021 to 2026.

Chapter 3, the Azelamide MEA competitive situation, sales quantity, revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Azelamide MEA breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2021 to 2032.

Chapter 5 and 6, to segment the sales by Type and by Application, with sales market share and growth rate by Type, by Application, from 2021 to 2032.

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2021 to 2026. and Azelamide MEA market forecast, by regions, by Type, and by Application, with sales and revenue, from 2027 to 2032.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Azelamide MEA.

Chapter 14 and 15, to describe Azelamide MEA sales channel, distributors, customers, research findings and conclusion.

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Azelamide MEA Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 High Purity (98.5%)

1.3.3 Regular Purity (95%)
