Participation rates are up from 2021. Buyers are also spending significantly more on camping gear. In 2022, adult participants spent an average of \$746.41 on camping gear. According to the North American Camping Report, approximately 77 million U.S. households camp at least occasionally. Most of them spend three times a year on these activities. The increasing number of adventure and camping activities is expected to remain one of the key trends due to increased spending on entertainment activities by Millennials.
