Abstracts

A bakery is an establishment that produces and sells flour-based food baked in an oven such as bread, cookies, cakes, pastries, and pies. Some retail bakeries are also cafés, serving coffee and tea to customers who wish to consume the baked goods on the premises.

Scope of the Report:

This report focuses on the Bakery in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The increasing demand for bakery drives the market. Availability of foods at reasonable prices, variety of products, rapid urbanization, hectic lifestyles, health benefits and the convenience of baked products are key factors contributing to the growth of market.

Increasing preference for bread, rolls, cakes and pastries, pies, cookies, crackers, pretzels and tortillas is expected to augment demand over the forecast period. Europe dominates the global bakery market and is expected to be the highest revenue contributor until the end of 2020. The European bakery industry is a traditional one with many established bakers and bakery chains that follow traditional artisanal practices and also align with modern-day requirements.

The worldwide market for Bakery is expected to grow at a CAGR of roughly 2.4% over the next five years, will reach 77100 million US\$ in 2023, from 66900 million US\$ in 2017, according to a new GIR (Global Info Research) study.
