Abstracts

The global Basmati Rice market size is expected to reach \$ 27550 million by 2032, rising at a market growth of 8.3% CAGR during the forecast period (2026-2032).

Basmati rice has a typical pandan-like (*Pandanus amaryllifolius* leaf) flavour caused by the aroma compound 2-acetyl-1-pyrroline. Basmati grains contain about 0.09 ppm of this aromatic chemical compound naturally, a level that is about 12 times more than non-basmati rice varieties, giving basmati its distinctive spicy fragrance and flavour. This natural aroma is also found in cheese, fruits and other cereals. It is a flavoring agent approved in the United States and Europe, and is used in bakery products for aroma.

Global Basmati Rice key players include KRBL, Amira Nature Foods, LT Foods, Best Foods, Kohinoor Rice etc. Global top five manufacturers hold a share over 15%.

India is the largest market, with a share over 70%, followed by Pakistan and Kenya, both have a share over 20% percent.

In terms of product, Indian Basmati Rice is the largest segment, with a share over 70%. And in terms of application, the largest application is Direct Edible followed by Deep Processing.
