Abstracts

A bathroom sink is a fixture that comes in different shapes. These sinks are also known by other names such as hand basin and wash basin. Bathroom sinks are usually used for washing hands. The sink is usually attached with a faucet that supplies hot and cold water and can even have a spray feature for faster rinsing. The growing bathroom concept has resulted in the personalization of bathroom accessories, wherein bathroom sinks come in various designs and features. Bathroom sinks are typically made up of ceramic, concrete, glass, marble, and granite.

Scope of the Report:

This report focuses on the Bathroom Sinks in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Increase in building refurbishment activities and the growing trend of home improvement and repair spending around the world are main factors leading to the growth of market. APAC is witnessing the rapid economic growth of the emerging countries and a rapid growth in population that demands the need for residential and commercial construction activities. This will in turn, drive the need for bathroom sinks. Owing to factors such as the growth of the residential sector, rising investments in infrastructure, and the continuous implementation of policies to induce private investments, countries such as Indonesia will significantly contribute to the growth of the bathroom sinks market.

The worldwide market for Bathroom Sinks is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
