Beach buggy is a recreational motor vehicle with large wheels, and wide tires, designed for use on sand dunes, beaches, off road or desert recreation.

Beach buggies first appeared in the southern California of the United States in the 1950s. At the beginning, they were probably modified products made by amateurs who removed the shells of old cars that they wanted to scrap, and then installed large off-road tires on the remaining chassis. But then gradually began to have Beach buggies that were professionally modified based on the structure of a specific car model, or directly produced kits for people to assemble and drive.
