Abstracts

According to our (Global Info Research) latest study, the global Benefits Management Solutions market size was valued at US$ 913 million in 2024 and is forecast to a readjusted size of USD 1452 million by 2031 with a CAGR of 6.9% during review period.

Benefits management solutions, often referred to as benefits administration software or platforms, are specialized software systems and tools designed to streamline and automate the management of employee benefits programs within organizations. These solutions are used by HR (Human Resources) departments and benefits administrators to efficiently handle various aspects of employee benefits, such as health insurance, retirement plans, paid time off, and other perks.

Benefits management solutions are increasingly integrated with broader HCM systems. This seamless integration allows for a unified approach to HR processes, including benefits management, payroll, time tracking, and talent management.
