Abstracts

Bi-fold doors open up the full potential of indoor-outdoor living. And even in small spaces, a simple bi-fold door can provide fresh air and access to a beautiful view with a simple push.

Scope of the Report:

This report focuses on the Bifold Doors in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The increasing demand for bi-fold doors drives the market. The increasing construction of skyscrapers as one of the key growth factors for the global bi-fold doors market. The rise in urbanization is resulting in an exponential growth of the construction sector, especially in the developing economies in the form of skyscrapers. Skyscrapers mainly signify luxury and comfort living and developers increasingly use bi-fold doors in skyscrapers to retain the luxury of the building. Rise in adoption of energy-efficient doors and application of bi-fold doors as door-wall system are expected to drive the bi-fold doors market. In addition, bi-fold doors provide assistance in maximizing the space without significant change in the architecture, which is expected to propel the growth. Asia-Pacific is expected to be main revenue contributor owing to rapid urbanization and increase in disposable income of the individuals in China and India. The worldwide market for Bifold Doors is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
