Abstracts

According to our (Global Info Research) latest study, the global Biobased Tires market size was valued at US\$ 7102 million in 2024 and is forecast to a readjusted size of USD 9320 million by 2031 with a CAGR of 4.0% during review period.

In this report, we will assess the current U.S. tariff framework alongside international policy adaptations, analyzing their effects on competitive market structures, regional economic dynamics, and supply chain resilience.

Biobased tires are tires made of bio-based materials, which are mainly derived from renewable resources such as plants, crop waste, animal and vegetable oils, etc. The introduction of biobased tires aims to reduce dependence on traditional petroleum-based materials, reduce the environmental burden during tire production and use, and promote the sustainable development of the tire industry.

This report is a detailed and comprehensive analysis for global Biobased Tires market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Biobased Tires market size and forecasts, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2020-2031

Global Biobased Tires market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2020-2031

Global Biobased Tires market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2020-2031

Global Biobased Tires market shares of main players, shipments in revenue (\$ Million), sales quantity (K Units), and ASP (US\$/Unit), 2020-2025

The Primary Objectives in This Report Are:

- To determine the size of the total market opportunity of global and key countries
- To assess the growth potential for Biobased Tires
- To forecast future growth in each product and end-use market
- To assess competitive factors affecting the marketplace

This report profiles key players in the global Biobased Tires market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Michelin Group, Linglong Tire, GoodYear, Nokian Tyres, Zhengdao Tire, Hankook Tire, Bridgestone, Continental AG, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Biobased Tires market is split by Type and by Application. For the period 2020-2031, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Biobased Material Content:

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Biobased Tires Consumption Value by Type: 2020 Versus 2024 Versus 2031

1.3.2 Biobased Material Content:
