The bird repellent liquid is a non-toxic, environmentally friendly, slow-release preparation that achieves the effect of repelling birds by emitting an odor that birds hate. The main ingredients of the bird repellent stock solution include a variety of plant-derived fragrances, such as methyl anthranilate, jasmine, tuberose, alfalfa, etc. These ingredients are extracted through supercritical extraction technology, have good biodegradability, and are green and harmless to the human and animal environment. Its working principle is to release an odor that birds hate very much, stimulate the nervous system and respiratory system of birds, and make them dare not approach the application area.
