Abstracts

A blockchain, originally block chain, is a continuously growing list of records, called blocks, which are linked and secured using cryptography.

Scope of the Report:

This report studies the Blockchain Enterprise Survey market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Blockchain Enterprise Survey market by product type and applications/end industries. It is clear that companies across the board have a significantly greater understanding of blockchain technology than was the case 12 months ago. This stems in part from a surge in R&D (research & development) both internally and in partnership with third parties, with a recognition that blockchain has the potential to be deployed in a variety of use cases. As the number of research projects has increased so, too, has awareness, both amongst the participants and elsewhere in their industries, with competitor companies in turn beginning to consider whether they, too, should seek to gain competitive advantage from deployment.

The global Blockchain Enterprise Survey market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Blockchain Enterprise Survey.
