Body Armor and Ballistic Helmets are important protective equipment for military personnel. They can protect the wearer's key parts from injury and improve the survivability of soldiers on the battlefield.

Body Armor is a special protective clothing, mainly used for self-protection of soldiers or police officers when facing gunfire or other weapons. It can protect the wearer's key body parts, such as the chest, abdomen and back, to reduce or prevent injuries caused by bullets, shrapnel, etc. Ballistic Helmets are individual protective equipment used to protect the head, which can resist the impact of bullets, shrapnel and other splashes. On the battlefield, the head is a vulnerable part, so bulletproof helmets are crucial to protecting the lives of soldiers.
