Abstracts

Boxing is currently one of the most popular sports, with the International Boxing Association (AIBA) looking to increase the number of women's boxing events in the Olympic program for the Tokyo 2020 games. In addition to training clubs, the market is also registering several new boxing tournaments, for example, in 2016, the International Championship Boxing League (ICBL) commenced operations and went on to become world's first competitive league for boxing.

Scope of the Report

This report focuses on the Boxing Equipment in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Increasing awareness related to healthy lifestyle has led people to participate in kick boxing, and other self-defensive activities. Surge in kick boxing participation has led to an increase in demand for the kick boxing equipment in the fitness and sports industry. Moreover, people are trying to maintain their health and reduce weight, due to which they are engaging in various fitness related activities. With the increase in participation in fitness activities, demand for the kick boxing equipment is projected to increase in the fitness industry significantly. Such factors are likely to boost growth of the global market of kick boxing equipment during the predicted period. Participation in fitness activities such as kick boxing helps athletes in reducing the prominence of cardiovascular diseases. In order to burn fat and maintain fitness, people follow high-intensity workout routine. Attributed to intense workouts, people regain endorphins that they lose due to surge in stress levels. This helps in lowering prevalence of cardiovascular diseases among professional boxers and athletes. Such factors are projected to fuel growth of the global market of kick boxing equipment throughout 2022.

The worldwide market for Boxing Equipment is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
