According to our (Global Info Research) latest study, the global Brassica Alcohol market size was valued at US\$ 42.96 million in 2025 and is forecast to a readjusted size of US\$ 52.15 million by 2032 with a CAGR of 2.8% during review period.

Brassica Alcohol refers to a plant-derived fatty alcohol mixture typically obtained from hydrogenating Brassica (rapeseed/canola) oils, with an industry chain that starts from oilseed cultivation and crushing to produce fatty acids/esters, followed by hydrogenation/fractionation into fatty alcohols, which are then formulated into downstream applications such as personal care and cosmetics (emollients, thickeners, conditioners), household/home-care surfactants and detergents, industrial lubricants, and specialty chemical intermediates.

In 2025, global Brassica Alcohol production reached approximately 3262 MT, with an average global market price of around US\$ 12.8 per kg. The global single-line production capacity ranges from 300 to 500 MT per year. The industry's gross profit margin is approximately 20%-25%.

This report is a detailed and comprehensive analysis for global Brassica Alcohol market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Brassica Alcohol market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global Brassica Alcohol market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global Brassica Alcohol market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global Brassica Alcohol market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/kg), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Brassica Alcohol

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Brassica Alcohol market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Alfa Chemistry, The Innovation Company, Gilas, Mibelle Biochemistry, Sensient Cosmetic Technologies, Inolex, BASF, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Brassica Alcohol market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Standard Purity Grades

High-Purity Grades
