Abstracts

Built-in dishwashers are integrated and permanent kitchen appliances for washing large capacity loads. It saves space since it is integrated and connected to the flow of other kitchen appliances and is permanently fixed. Built-in dishwashers are suitable for homeowners, especially those with families, who plan on living in their current houses for long periods of time

Scope of the Report:

This report focuses on the Built-in Dishwashers in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

Rising urbanization, a rapidly growing demand from middle class population, coupled with the rising prominence of dishwashers in multi-brand stores and exclusive stores, are some of the factors driving growth in the India dishwashers market. Furthermore, continuing growth in the country's organized retail and e-commerce industry is also anticipated to fuel the sales of dishwashers in India, in the coming years.

During 2015, North America dominated the built-in dishwashers market and accounted for around 48% of the total market share. Much of the region's growth is due to the increasing demand for built-in dishwashers from the replacement market. Over 90% of dishwasher sales in the US is of built-in form rather than the portable form. The increased penetration of smart and connected appliances will increase the demand for energy-efficient built-in dishwashers in the region during the forecast period.

The worldwide market for Built-in Dishwashers is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
