## Abstracts

According to our (Global Info Research) latest study, the global Bungee Jumping Equipment market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

Bungee jumping is an extreme adventure sport. In this, a jumper does a free fall from a fixed tall structure like a cliff, bridge, or crane, as well as from a stationary hot-air balloon or helicopter, with the help of a harness and a rubber cord (commonly known as a bungee cord) attached to the body. The jumper bounces back to some extent when the bungee cord rebounds its maximum stretch, and continues to fly up and down until all the kinetic energy is dissipated.

The rising awareness and popularity of fund-raising events for various civic or health issues has resulted in the usage of sport activities as a fundraiser event for noble causes. Nude bungee jumping is one of the latest trends to raise funds for mental health. The privacy of the participants is protected securely. This event is conducted in collaboration with British Columbia Schizophrenia Societies (BCSS) that donate the proceeds towards patients suffering from mental health through various means. This market analysis identifies the increase in adventure sports activities for fundraising purposes as one of the key trends behind the growth of the bungee jumping equipment market.
