## Abstracts

The global Business Travel Management Solution market size is expected to reach \$ 38440 million by 2029, rising at a market growth of 3.6% CAGR during the forecast period (2023-2029).

The business travel management solution is a comprehensive solution designed to more effectively manage the business travel activities of corporate employees. It integrates booking, expense reimbursement, policy compliance, security management, data analysis and other functions to help enterprises achieve cost control, efficiency improvement and employee satisfaction improvement. These solutions, usually based on software platforms or cloud services, aim to provide a system for centrally managing and monitoring business travel, thereby optimizing the entire travel process. As corporate travel management needs continue to evolve, so too do business travel management solutions. Using artificial intelligence and data analytics, solutions may provide intelligent travel bookings and recommendations based on employee preferences and history.
