Cable protection guards provide a protection to cables that run through the protector. The protectors ensure the cables are not walked on, pulled on, ripped or damaged by people stepping or pulling on them. Another key benefit is that these protectors also organise and make the office or workplace look a lot tidier as these give the wires a flush finish and make the environment look less cluttered. As well as making the environment look tidier and less cluttered, cable protection guards also increase the safety in the workplace as people are less likely to trip over loose wires.
