Abstracts

Cake Mix is defined as dried pre-mixes used for baking cakes. Cake mix can be prepared using eggs or egg replacers. They are generally categorized into 3 types which include complete mix, dough base and dough concentrates. Cake premixes provide convenience usage to consumers, foodservice operations and industrial-scale bakeries. Cake mix saves preparation time. They reduce the hassle of selecting the ingredients. Use of cake mix speeds up the whole baking process and hence influences the positive growth of the market.

Scope of the Report:

This report focuses on the Cake Mix in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The growing consumer indulgence in cakes will be one of the major factors that will have a positive impact on the growth of the cake mix market in the US till 2021. With the growing consumer preference towards indulging in experiences across texture, flavor, and color, there is an increasing demand for cake mix flavors such as vanilla, chocolate, red velvet, banana, and lemon. Moreover, since the indulgence factors is mainly associated with creaminess, sweetness, and richness of food products, there is a steady demand for premium food products such as cakes, cupcakes, and pastries. Among these North America has the major market share followed Europe. Increasing demand of bakery products amongst the developing countries of North America and Europe region is supporting the growth of cake mix market. China, Germany, U.K., U.S. and Netherlands are the major importers of Cake Mix.
