Abstracts

Camping is an outdoor recreational activity involving overnight stays away from home in a shelter such as a tent, a caravan, or a motorhome. To be regarded as "camping" a minimum of one night is spent outdoors, distinguishing it from day-tripping, picnicking, and other similarly short-term recreational activities. Camping plays a vital role in overcoming various health problems like obesity and backpain as it helps the campers to improve their physical as well as mental health.

Scope of the Report:

This report focuses on the Camping Equipment in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The major drivers of camping equipment are increasing recreational expenditure, changing lifestyle, and rising participation in outdoor recreational activities. Aging population and early retirement also will drive the industry as early retirement will give people more time for outdoor recreational activities. Growing health benefits of outdoor activities are also projected to give new shape to the camping equipment market during the next decade. Despite various challenges, the market for camping equipment is expected to grow over the forecast period.

The worldwide market for Camping Equipment is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
