Automotive 3D overlay glass is a type of automotive glass designed to provide a three-dimensional appearance to the exterior of the vehicle. This type of glass is usually used for the roof or hood of cars and is manufactured using specialized manufacturing techniques to form a textured surface on the glass. Compared to traditional car glass, 3D car cover glass has several advantages. It provides a unique and fashionable appearance to the exterior of the vehicle, enhancing its visual appeal. In addition, the textured surface of glass helps reduce glare and improve visibility in bright sunlight. The 3D car cover glass is also very durable and can withstand harsh weather conditions, making it an ideal choice for automotive applications.
