Abstracts

Casinos are establishments where people can participate in various forms of gambling, and the casino industry generates high revenues from these activities.

SCOPE OF THE REPORT:

This report studies the Casinos market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Casinos market by product type and applications/end industries.

In 2017, the top four players account for an estimated 9.2% of industry revenue. This is mainly due to the geographically diverse nature of the industry, as well as the increasingly diverse range of products that have come to market with the introduction of online gambling. For example, within certain locals, such as Macau and Singapore, the industry is concentrated among just a few players, mainly due to the strict regulatory framework the industry is governed by.
