Abstracts

According to our (Global Info Research) latest study, the global Cat Care Services market size was valued at US\$ 947 million in 2025 and is forecast to a readjusted size of US\$ 1674 million by 2032 with a CAGR of 8.4% during review period.

Pet cat care services refer to temporary, personalized care services provided by professionals or organizations when cat owners are unable to care for their cats themselves due to business trips, travel, hospitalization, or busy schedules. Service formats mainly include in-home feeding, home boarding, short-term boarding at professional catteries, health monitoring, and care for special needs.

The rapid development of pet cat care services is mainly due to the increase in the number of single-person households in cities, the prevalence of dual-income families, and the continuous rise in the popularity of cats as indoor companion animals. At the same time, modern cat owners pay close attention to the psychological well-being and stress management of their pets and are unwilling to entrust their pets to non-professionals, which drives the market demand for professional and trustworthy care services.

This report is a detailed and comprehensive analysis for global Cat Care Services market.
