Abstracts

According to our (Global Info Research) latest study, the global Cetyl Isooctanoate market size was valued at US\$ 314 million in 2025 and is forecast to a readjusted size of US\$ 400 million by 2032 with a CAGR of 3.5% during review period.

Hexadecyl isooctanoate is an organic compound formed by the esterification of isooctanoic acid and hexadecanol. It is commonly used in cosmetics (such as skin creams, lotions, and makeup) and personal care products as a highly effective, lightweight emollient, softening agent, and skin conditioning agent, possessing excellent spreadability and penetration properties.

The upstream supply chain primarily relies on both petrochemical and oleochemical sources, with the core raw materials being isooctanoic acid (2-ethylhexanoic acid) and cetyl alcohol (hexadecanol). Isooctanoic acid is mainly derived from the butyraldehyde condensation pathway, while cetyl alcohol is obtained through the hydrogenation of natural oils or synthesis gas processing. The core of the synthesis process lies in the esterification reaction, and the key technologies involve the selection of catalysts and refining processes to ensure that the finished product achieves extremely low acid value, is colorless and odorless, and has high purity.

In 2025, global sales are projected to be approximately 50,000 tons, with an average market price of approximately US\$6,095 per ton. The industry's gross profit margin is in the range of 15%-30%.

Currently, the hexadecyl isooctanoate industry is considered a fine chemical sub-sector closely linked to and steadily growing with the global personal care market. Industry

experts generally believe that its future development prospects depend directly on consumer trends in the cosmetics industry, particularly the pace of expansion in emerging markets such as the Asia-Pacific region.

The core drivers of industry growth are very clear: firstly, the strong demand for high-quality personal care products driven by consumption upgrades globally, especially in markets like China, which directly fuels the demand for high-end raw materials; secondly, this ingredient, due to its refreshing feel and good compatibility, meets the market's pursuit of a superior product experience, leading to its continued and widespread application in formulations.

This report is a detailed and comprehensive analysis for global Cetyl Isooctanoate market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Cetyl Isooctanoate market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Cetyl Isooctanoate market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Cetyl Isooctanoate market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Cetyl Isooctanoate market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/Ton), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Cetyl Isooctanoate

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Cetyl Isooctanoate market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Nikko Chemicals, Oleon, KLK OLEO, BASF, Lubrizol, Patech Fine Chemicals, Taiwan NJC Corporation, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Cetyl Isooctanoate market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Purity?98%

Purity ?99%

Other

Market segment by Color (APHA)

?25

?50

Market segment by Acid Value

?0.1 mgKOH/g

Other

Market segment by Application

Cosmetic

Personal Care Products

Major players covered

Nikko Chemicals

Oleon

KLK OLEO

BASF

Lubrizol

Patech Fine Chemicals

Taiwan NJC Corporation

Market segment by region, regional analysis covers

North America (United States, Canada, and Mexico)

Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Japan, Korea, India, Southeast Asia, and Australia)

South America (Brazil, Argentina, Colombia, and Rest of South America)

Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

The content of the study subjects, includes a total of 15 chapters:

Chapter 1, to describe Cetyl Isooctanoate product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Cetyl Isooctanoate, with price, sales quantity, revenue, and global market share of Cetyl Isooctanoate from 2021 to 2026.

Chapter 3, the Cetyl Isooctanoate competitive situation, sales quantity, revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Cetyl Isooctanoate breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2021 to 2032.

Chapter 5 and 6, to segment the sales by Type and by Application, with sales market share and growth rate by Type, by Application, from 2021 to 2032.

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2021 to 2026. and Cetyl Isooctanoate market forecast, by regions, by Type, and by Application, with sales and revenue, from 2027 to 2032.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Cetyl Isooctanoate.

Chapter 14 and 15, to describe Cetyl Isooctanoate sales channel, distributors, customers, research findings and conclusion.

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Benzyltoluene Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 Single-Component

1.3.3 Compound Type

1.4 Market Analysis by Flash Point

1.4.1 Overview: Global Benzyltoluene Consumption Value by Flash Point: 2021 Versus 2025 Versus 2032

1.4.2
