Abstracts

According to our (Global Info Research) latest study, the global Charitable Giving market size was valued at US\$ million in 2024 and is forecast to a readjusted size of USD million by 2031 with a CAGR of %during review period.

A charitable giving is a gift of cash or property made to a nonprofit organization to help it accomplish its goals, for which the donor receives nothing of value in return. In the U.S., donations can be deducted from the federal tax returns of individuals and companies making them. The Internal Revenue Service (IRS) restricts the types of donations that can be made and the types of organizations that can receive them. In order to deduct charitable contributions, the recipient charity must be a qualified organization in the eyes of the IRS.
