## Abstracts

According to our (Global Info Research) latest study, the global Christian Streaming market size was valued at US\$ 509 million in 2025 and is forecast to a readjusted size of US\$ 880 million by 2032 with a CAGR of 8.1% during review period.

Christian streaming refers to digital platforms delivering faith-aligned content via the internet, including on-demand video (movies, sermons, Bible studies), live church services, worship music, kids? programming, and educational series, curated to reflect Christian values while excluding explicit or conflicting themes. It serves as a dedicated hub for spiritual growth, family-safe entertainment, and community connection, accessible across mobile, desktop, smart TVs, and streaming devices.

Christian streaming represents a specialized segment within the broader digital media and faith-based markets, encompassing video, audio, and interactive content serving Christian audiences worldwide. This market has experienced explosive growth driven by pandemic-era digital adoption, technological accessibility, and the global expansion of evangelical Christianity. The market bridges traditional religious media with modern digital consumption patterns, creating a competitive landscape where faith-based platforms compete with mainstream services for attention while addressing unique spiritual needs.
