Abstracts

The global Civilian Aircraft Oxygen Systems market size is expected to reach \$ 176 million by 2032, rising at a market growth of 5.9% CAGR during the forecast period (2026-2032).

The oxygen system in civil aircraft is a life-saving device that ensures flight safety. It activates automatically or manually in emergencies such as cabin depressurization to provide breathable oxygen to passengers and crew, maintaining their physiological needs until the aircraft descends to a safe altitude.

Upstream: Raw materials (special alloys, composite materials), oxygen sources (gases, chemicals), valves, sensors, regulators. Downstream: Civil aircraft manufacturers (OEMs), airline operators, and MRO (maintenance, repair, and operation) companies.

In 2025, the global market price for civil aircraft oxygen systems was \$61,490 per unit, with approximately 1,860 units sold. Global annual production capacity was 2,000 units, and the industry average profit margin was approximately 15%-25%.

This report studies the global Civilian Aircraft Oxygen Systems production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Civilian Aircraft Oxygen Systems and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Civilian Aircraft Oxygen Systems that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Civilian Aircraft Oxygen Systems total production and demand, 2021-2032, (Units)

Global Civilian Aircraft Oxygen Systems total production value, 2021-2032, (USD Million)

Global Civilian Aircraft Oxygen Systems production by region & country, production, value, CAGR, 2021-2032, (USD Million) & (Units), (based on production site)

Global Civilian Aircraft Oxygen Systems consumption by region & country, CAGR, 2021-2032 & (Units)

U.S. VS China: Civilian Aircraft Oxygen Systems domestic production, consumption, key domestic manufacturers and share

Global Civilian Aircraft Oxygen Systems production by manufacturer, production, price, value and market share 2021-2026, (USD Million) & (Units)

Global Civilian Aircraft Oxygen Systems production by Type, production, value, CAGR, 2021-2032, (USD Million) & (Units)

Global Civilian Aircraft Oxygen Systems production by Application, production, value, CAGR, 2021-2032, (USD Million) & (Units)

This report profiles key players in the global Civilian Aircraft Oxygen Systems market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Collins Aerospace (RTX), Safran Aerosystems, Meggitt, Diehl Aviation, Aerox Aviation Oxygen Systems, Precise Flight, Mountain High Aviation Oxygen Systems, Aithre Aviation, Essex Industries, Eaton, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Civilian Aircraft Oxygen Systems market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), volume (production, consumption) & (Units) and average price (US\$/Unit) by manufacturer, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.

Global Civilian Aircraft Oxygen Systems Market, By Region:

United States

China

Europe

Japan

South Korea

ASEAN

India

Rest of World

Global Civilian Aircraft Oxygen Systems Market, Segmentation by Type:

Automatic Trigger

Manual Trigger

Global Civilian Aircraft Oxygen Systems Market, Segmentation by Application:

Commercial Aircraft

Private Aircraft

Companies Profiled:

Collins Aerospace (RTX)

Safran Aerosystems

Meggitt

Diehl Aviation

Aerox Aviation Oxygen Systems

Precise Flight

Mountain High Aviation Oxygen Systems

Aithre Aviation

Essex Industries

Eaton

Key Questions Answered:

1. How big is the global Civilian Aircraft Oxygen Systems market?
2. What is the demand of the global Civilian Aircraft Oxygen Systems market?
3. What is the year over year growth of the global Civilian Aircraft Oxygen Systems market?
4. What is the production and production value of the global Civilian Aircraft Oxygen Systems market?
5. Who are the key producers in the global Civilian Aircraft Oxygen Systems market?
6. What are the growth factors driving the market demand?

I would like to order

Product name: Global Civilian Aircraft Oxygen Systems Supply, Demand and Key Producers, 2026-2032

Product link: <https://marketpublishers.com/r/G988236FF922EN.html>

Price: US\$ 4,480.00 (Single User License / Electronic Delivery)
