## Abstracts

According to our (Global Info Research) latest study, the global Cloud Archiving Service market size was valued at US\$ 558 million in 2025 and is forecast to a readjusted size of US\$ 872 million by 2032 with a CAGR of 6.6% during review period.

Cloud Archiving Service is a professional long-term data retention and management solution based on a cloud computing model. It delivers traditional enterprise information archiving functions as a service, with users subscribing and using it on demand. Its core value lies in securely migrating infrequently accessed but legally required data, such as emails, files, and database records, from expensive local primary storage to low-cost, high-durability object storage provided by cloud service providers, and automating lifecycle management through a policy engine. This service not only significantly reduces enterprises' IT infrastructure investment and operational costs, but also helps enterprises efficiently meet the mandatory requirements of laws, industry regulations, and internal governance regarding long-term data retention and security through built-in compliance frameworks, encryption protection, and immutable storage.

The global cloud archiving service market exhibits significant regional differences in development. North America is the most mature market, driven by stringent data compliance regulations and a well-established cloud ecosystem, serving as a primary source of technological innovation. Europe follows closely, with growth heavily reliant on compliance with data protection regulations such as GDPR. The Asia-Pacific region is experiencing the strongest growth, particularly in China, India, and Southeast Asia, fueled by digital transformation, surging data volumes, and emerging data localization laws, with enterprises urgently seeking cost-effective solutions. Latin America and the Middle East and Africa are in the early stages of development, with demand

concentrated in specific regulated sectors such as finance. Overall, the market is rapidly evolving from basic storage replacement to intelligent, compliant, and integrated strategic service platforms.

This report is a detailed and comprehensive analysis for global Cloud Archiving Service market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

### **Key Features:**

Global Cloud Archiving Service market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Cloud Archiving Service market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Cloud Archiving Service market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global Cloud Archiving Service market shares of main players, in revenue (\$ Million), 2021-2026

### **The Primary Objectives in This Report Are:**

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Cloud Archiving Service

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Cloud Archiving Service market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Amazon AWS, Barracuda Networks, Dell, Global Relay, Google Cloud, Idrive, Informatica, Iron Mountain, Jatheon, Microsoft Azure, etc.

This report also provides key insights about market drivers, restraints, opportunities,

new product launches or approvals.

## Market segmentation

Cloud Archiving Service market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

### Market segment by Type

Email Cloud Archiving Service

Document Cloud Archiving Service

Business System Cloud Archiving Service

Data Cloud Archiving Service

Others

### Market segment by Deployment

Public Cloud Service

Private Cloud Service

Hybrid Cloud Service

### Market segment by Technology

General Storage Optimization Service

Compliance Archiving Service

Immutable Backup Archiving Service

## Market segment by Application

Finance

Healthcare

Law

E-Commerce & Retail

Others

## Market segment by players, this report covers

Amazon AWS

Barracuda Networks

Dell

Global Relay

Google Cloud

Idrive

Informatica

Iron Mountain

Jatheon

Microsoft Azure

OpenText

ShareArchiver

Smarsh

SOLIXCloud

StoneFly

Veritas

Market segment by regions, regional analysis covers

North America (United States, Canada and Mexico)

Europe (Germany, France, UK, Russia, Italy and Rest of Europe)

Asia-Pacific (China, Japan, South Korea, India, Southeast Asia and Rest of Asia-Pacific)

South America (Brazil, Rest of South America)

Middle East & Africa (Turkey, Saudi Arabia, UAE, Rest of Middle East & Africa)

**The content of the study subjects, includes a total of 13 chapters:**

Chapter 1, to describe Cloud Archiving Service product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top players of Cloud Archiving Service, with revenue, gross margin, and global market share of Cloud Archiving Service from 2021 to 2026.

Chapter 3, the Cloud Archiving Service competitive situation, revenue, and global market share of top players are analyzed emphatically by landscape contrast.

Chapter 4 and 5, to segment the market size by Type and by Application, with consumption value and growth rate by Type, by Application, from 2021 to 2032.

Chapter 6, 7, 8, 9, and 10, to break the market size data at the country level, with revenue and market share for key countries in the world, from 2021 to 2026. and Cloud Archiving Service market forecast, by regions, by Type and by Application, with

consumption value, from 2027 to 2032.

Chapter 11, market dynamics, drivers, restraints, trends, Porters Five Forces analysis.

Chapter 12, the key raw materials and key suppliers, and industry chain of Cloud Archiving Service.

Chapter 13, to describe Cloud Archiving Service research findings and conclusion.

## I would like to order

Product name: Global Cloud Archiving Service Market 2026 by Company, Regions, Type and Application, Forecast to 2032

Product link: <https://marketpublishers.com/r/GF22CF24A24FEN.html>

Price: US\$ 3,480.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
