Abstracts

According to our (Global Info Research) latest study, the global Cloud-based Firewall Platform market size was valued at US\$ 9775 million in 2025 and is forecast to a readjusted size of US\$ 25469 million by 2032 with a CAGR of 14.6% during review period.

Cloud-based Firewall Platform is a cloud-delivered network security platform that provides firewall policy control, traffic inspection, intrusion prevention, application access management, threat intelligence updates, and centralized security operations across distributed networks. Compared with traditional hardware firewalls, its advantages lie in elastic deployment, unified policy management, faster rule updates, lower on-site device maintenance, and better protection for branch offices, remote users, and multi-cloud environments. The industry average gross margin was approximately 70% in 2025. Upstream, the key infrastructure inputs include servers, switches, and storage equipment, with representative suppliers such as Dell Technologies, Cisco Systems, and SK hynix providing computing, network switching, and data storage resources. The midstream segment focuses on cloud security architecture design, firewall engine development, policy orchestration, traffic analysis, threat detection, identity integration, log management, high-availability deployment, security rule updates, and platform operations, which together determine protection capability, service stability, scalability, and customer retention. Downstream, Cloud-based Firewall Platform is mainly used in BFSI, retail, IT, and telecom sectors, where it protects cloud workloads, branch networks, online transaction systems, customer data, and remote access environments, with representative customers including JPMorgan Chase, Walmart, and Verizon.

Cloud-based Firewall Platform demand will be shaped by enterprise security shifting from fixed perimeter defense to cloud-native, distributed protection. In BFSI, the platform is valued for protecting online transactions, customer data, regulatory workloads, and remote access. In retail, it supports branch networks, e-commerce systems, and payment traffic under high seasonal volatility. In IT and telecom, the key need is scalable traffic inspection across multi-cloud, edge nodes, and large user networks. As enterprises reduce dependence on hardware appliances, competition will focus on threat detection accuracy, policy orchestration, latency control, identity integration, compliance reporting, and service reliability.

This report is a detailed and comprehensive analysis for global Cloud-based Firewall Platform market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Cloud-based Firewall Platform market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Cloud-based Firewall Platform market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Cloud-based Firewall Platform market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global Cloud-based Firewall Platform market shares of main players, in revenue (\$ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Cloud-based Firewall Platform

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Cloud-based Firewall Platform market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Palo Alto Networks (USA), Fortinet (USA), Check Point Software Technologies (Israel), Zscaler (USA), Cisco (USA), Cloudflare (USA), Netskope (USA), Cato Networks (Israel), Amazon Web Services (USA), Microsoft Azure (USA), etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

Cloud-based Firewall Platform market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Firewall-as-a-Service Platform

Cloud-Native NGFW Platform

Cloud WAF Platform

Others

Market segment by Cloud Environment

Public Cloud Firewall Platform

Private Cloud Firewall Platform

Hybrid Cloud Firewall Platform

Market segment by Throughput

Throughput

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Classification of Cloud-based Firewall Platform by Type

1.3.1 Overview: Global Cloud-based Firewall Platform Market Size by Type: 2021 Versus 2025 Versus 2032

1.3.2 Global Cloud-based Firewall Platform Consumption Value Market Share by Type in 2025

1.3.3 Firewall-as-a-Service Platform

1.3.4 Cloud-Native NGFW Platform

1.3.5 Cloud WAF Platform

1.3.6 Others

1.4 Classification of Cloud-based Firewall Platform by Cloud Environment

1.4.1 Overview: Global Cloud-based Firewall Platform Market Size by Cloud Environment: 2021 Versus 2025 Versus 2032

1.4.2 Global Cloud-based Firewall Platform Consumption Value Market Share by Cloud Environment in 2025

1.4.3 Public Cloud Firewall Platform

1.4.4 Private Cloud Firewall Platform

1.4.5 Hybrid Cloud Firewall Platform

1.5 Classification of Cloud-based Firewall Platform by Throughput

1.5.1 Overview: Global Cloud-based Firewall Platform Market Size by Throughput: 2021 Versus 2025 Versus 2032

1.5.2 Global Cloud-based Firewall Platform Consumption Value Market Share by Throughput in 2025

1.5.3 Throughput
