Abstracts

The coated steel industry finds its application majorly in building & construction, appliances, automotive, and other industries, which includes AHU, generator canopy, signage, solar heaters, lighting fixtures, furniture, metal doors & frames, and decking profilers. The growth of building & construction application is driven by increasing urbanization in Asia-Pacific and RoW, which resulted into increased demand for residential, commercial, and industrial infrastructure. Low interest rates on housing loans are also responsible for increase in the demand for new houses, eventually driving the market.
