Abstracts

The global Coil Zipper market size is expected to reach \$ million by 2029, rising at a market growth of % CAGR during the forecast period (2023-2029).

The global apparel industry as a whole is on a downward trend, and the overall output of the domestic apparel market is also on a downward trend. Therefore, the growth rate of the Coil Zipper industry has slowed down.

The teeth of the Coil Zipper are made of nylon monofilament wrapped around the centerline through a heated die. Compared with metal zippers and resin zippers, nylon zippers have the characteristics of low cost, large output and high penetration rate.

This report studies the global Coil Zipper production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Coil Zipper, and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2022 as the base year. This report explores demand trends and competition, as well as details the characteristics of Coil Zipper that contribute to its increasing demand across many markets.
