A Coin Pusher is a gambling machine that operates on the premise of inserting coins into a cabinet and attempting to push other coins or prizes off a shelf or platform. The machines typically feature a large playing area with a sliding door leading to the coin tray. Coins are inserted into the machine at the top, and as the coins stack up, they push against other coins, moving them closer to the edge of the shelf. Players aim to get the coins to fall off the edge of the shelf, where they are collected in the coin tray, allowing the player to collect the coins and tokens.
