## Abstracts

According to our (Global Info Research) latest study, the global Cold Mix Asphalt market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

Cold mix asphalt is made of a quarter-inch chip and proprietary oil, which keeps the asphalt soft and helps to repel water. Because of the specialty mix, this repair solution does not require any heating. Ready-to-use cold asphalt is usually used for repairing damages to the asphalt pavement. It exhibits increased elastic properties, excellent adhesion to the substrate without requiring a bonding layer and great resistance to weather stressing and time.

In the North America market, the major players of cold-mix asphalt include UNIQUE Paving Materials, K31-APS, EZ Street, RAP Management and Reliable Contracting Company, etc., and the top five players occupy about 21% of the market share. From the perspective of product type, emulsified cold mix asphalt is the largest market segment, accounting for 72% of the market share. From the perspective of application, asphalt concrete repair occupies the largest share, about 83%.
