Abstracts

According to our (Global Info Research) latest study, the global Commercial Auto Leasing market size was valued at US\$ 110830 million in 2025 and is forecast to a readjusted size of US\$ 167350 million by 2032 with a CAGR of 6.1% during review period.

Commercial auto leasing refers to a business arrangement in which a company leases vehicles for their commercial purposes rather than purchasing them outright. This type of leasing typically involves renting vehicles such as trucks, vans, or other vehicles used for business transportation and delivery services. The leasing agreement usually involves a fixed term during which the company pays a monthly fee to use the vehicles. At the end of the lease term, the company may have the option to return the vehicles, extend the lease, or purchase the vehicles at a predetermined price. Commercial auto leasing can provide businesses with flexibility, cost savings, and the ability to use newer vehicles without the long-term commitment of ownership.

Global key players of Commercial Auto Leasing include Enterprise Holdings, Penske, Avis Budget, Ryder, Europcar (Eurazeo), etc. The top five players hold a share about 33%. North America is the world's largest market for Commercial Auto Leasing and holds a share about 39%, followed by Asia-Pacific and Europe, with share about 32% and 23%, separately. In terms of product type, Truck is the largest segment, accounting for a share about 42%. In terms of application, Business is the largest field with a share about 61 percent.
