Commercial metal toilet partitions are a type of restroom partition that is made from metal materials. These partitions are commonly used in commercial settings such as office buildings, schools, and public restrooms because they are durable and easy to maintain. Metal toilet partitions can be made from a variety of metals, including stainless steel, aluminum, and powder-coated steel. Stainless steel partitions are often the most popular choice because they are corrosion-resistant and have a modern look. Aluminum partitions are lightweight and easy to install, while powder-coated steel partitions are more affordable than stainless steel but still offer durability.
