## **Abstracts**

Commercial truck insurance provides coverage for vehicles used by businesses. These could be vehicles purchased for sole use of the business itself, or personal vehicles used for business purposes. Commercial truck insurance operates similarly to personal auto insurance, covering collision, property damage, medical payments, and other costs that could result either from driving mistakes or damages caused by sources outside one's control. Personal insurance however, cannot usually be used for vehicles that are driven for business purposes. This is where commercial insurance steps in, since it can cover vehicles that regular auto insurance would not.
