## Abstracts

The global Comprehensive Human Resources Solution market size is expected to reach \$ 17740 million by 2029, rising at a market growth of 7.8% CAGR during the forecast period (2023-2029).

Integrated human resources solutions are a type of software and services that cover all aspects of human resources management and are designed to help companies manage their human resources more effectively. These solutions usually include multiple modules such as recruitment, employee information management, performance management, training and development, payroll and benefits management, etc. Integrated HR solutions will make greater use of artificial intelligence and machine learning to improve recruitment, match talent, predict performance and deliver personalized training. As concerns over data privacy and security continue to increase, HR solutions will enhance the protection of sensitive employee data.
