Abstracts

Construction Equipment Rental, also called plant hire in some countries (in the UK for instance), is a service industry providing machinery, equipment and tools of all kinds and sizes (from earthmoving to powered access, from power generation to hand-held tools, etc.) for a limited period of time to final users, mainly to construction contractors but also to industry and individual consumers.

Scope of the Report:

This report studies the Construction Equipment Rental market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Construction Equipment Rental market by product type and applications/end industries. This market research report identifies the high prices of equipment that meet emission regulations as one of the primary drivers for the growth of the global construction equipment rental market.

One of the key trends that will gain traction in the global construction equipment rental market is the growing preference for a joint venture in equipment rental. Joint ventures among big construction equipment rental companies enable them to enhance their product portfolio and help them obtain cost optimality in large-scale projects.

The customers in the US are becoming more accustomed to the flexibility of the outsourcing model, which drives the penetration of rental construction equipment in North America. In the forthcoming years, the rental market penetration in the US is expected to increase by 10%. The region will continue to adopt rental construction equipment during the estimated period due to the rising technical changes in equipment.

The global Construction Equipment Rental market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Construction Equipment Rental.

Europe also play important roles in global market, with market size of xx million USD in 2017 and will be xx million USD in 2023, with a CAGR of xx%.
