## Abstracts

The global Contactless Check-in Hotel market size is expected to reach \$ million by 2029, rising at a market growth of % CAGR during the forecast period (2023-2029).

The contactless check-in hotel market is experiencing significant growth due to the COVID-19 pandemic and consumer preference for contactless options. With the help of mobile apps, guests can complete the check-in process without interacting with hotel staff. Many hotels are adopting this technology to provide guests with a more seamless and contactless experience. The hotel installs a self-service kiosk in the lobby, and guests can check in and collect room keys by themselves. The technology is also used to reduce waiting times and improve service levels. Many hotels are combining contactless check-in technology with loyalty programs to provide guests with a more personalized experience. Overall, the contactless check-in hotel market is rapidly evolving with the development of new technologies, tools, and strategies to provide a safer and more seamless experience for guests while creating value for the hospitality industry.
