Abstracts

The container liner is made of polyethylene or polypropylene and is used to protect the cargo from any contamination, but also is used to protect the container mostly against rust and corrosion caused by the cargo. Also the liners are used for the transportation of dry bulk cargo in granules or powder

SCOPE OF THE REPORT:

This report focuses on the Container Liners in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.
Globally, the container liner industry market is low concentrated as the manufacturing technology of container liner is relatively matures. And some enterprises, like Taihua Group, Greif Flexible Products & Services and Linertech are well-known for the wonderful performance of their container liner and related services. At the same time, Europe, occupied 35% revenue market share in 2016, is remarkable in the global container liner industry because of their market share and technology status of container liner.
The consumption volume of container liner is related to downstream industries and global economy. As there will always be some uncertain in the global economy in the following years, the growth rate of container liner industry may not keep that fast. But it is surely forecasted that the market of container liner is still promising.
The product average price declined in the past few years due to the technology development, the average price will keep the trend in the few future years due to increasing mature manufacturing technology and lowing cost of raw materials.In the same time,the production are transferred to the regions with lower raw material cost and labor cost.

The impact on the cost and availability of raw materials and certain components is uncertain due to potential supply changes. The costs of raw materials have a significant impact on the level of expenses. If the prices of raw materials and related factors such as energy prices increase, and if new companies cannot pass those price increases on to customers, their results of operations and financial condition would suffer.
With emerging economies growing faster, a strategy has been adopted by most leading vendors in the container liner market to approach these areas. QYR analysis of the container liner market indicated that the demand in Europe and USA will be relatively stable, but Asia has higher growth rate. Vendors recognize the importance of this region, particularly in developing countries and are working towards penetrating this market by strengthening their sales and distribution networks.
Although the market competition of container liner is fierce globally, there are many enterprises can obtain considerable profit form the manufacturing and marketing of container liner and that is the reason that we believe there will also be enterprises enter this market. But it is suggested that enterprises those have plans to enter this industry have careful analysis of this market and the advantages or disadvantages of themselves.

The worldwide market for Container Liners is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US$ in 2023, from xx million US$ in 2017, according to a new GIR (Global Info Research) study.

Market Segment by Manufacturers, this report covers

There are 15 Chapters to deeply display the global Container Liners market.

Chapter 1, to describe Container Liners Introduction, product scope, market overview, market opportunities, market risk, market driving force;

Chapter 2, to analyze the top manufacturers of Container Liners, with sales, revenue, and price of Container Liners, in 2016 and 2017;

Chapter 3, to display the competitive situation among the top manufacturers, with sales, revenue and market share in 2016 and 2017;

Chapter 4, to show the global market by regions, with sales, revenue and market share of Container Liners, for each region, from 2013 to 2018;

Chapter 5, 6, 7, 8 and 9, to analyze the market by countries, by type, by application and by manufacturers, with sales, revenue and market share by key countries in these regions;

Chapter 10 and 11, to show the market by type and application, with sales market share and growth rate by type, application, from 2013 to 2018;

Chapter 12, Container Liners market forecast, by regions, type and application, with sales and revenue, from 2018 to 2023;

Chapter 13, 14 and 15, to describe Container Liners sales channel, distributors, traders, dealers, Research Findings and Conclusion, appendix and data source
