Abstracts

According to our (Global Info Research) latest study, the global Contract Abstraction Service market size was valued at US$ 85.9 million in 2024 and is forecast to a readjusted size of USD 199 million by 2031 with a CAGR of 12.9% during review period.

Contract abstraction software, also known as Contracts are a crucial asset for every business. They help to define and govern the rights and duties of any new relationship or agreement. As a company grows, so does the complexity of its processes and the number of contracts that need to be managed.

Contract abstraction is the process in which a brief statement or a specific piece of information (such as dates or clauses) is abstracted. It is a legal process that highlights all the important terms, providing a window to the key information from the agreement. This summary is known as a contract abstract.

The global contract abstraction software market has been growing rapidly in recent years, primarily driven by increasing demand for efficient contract management solutions, advancements in AI and ML technologies, and the need for businesses to reduce legal risks and ensure compliance.Today, every business and organisation across the globe will sign and enter a vast number of contracts. They have become the norm in all business relationships. This, however, presents a problem – contract management doesn’t end when the contract has been signed and the information that is needed to make informed business decisions resides in these signed contracts.

Contracts can seem confusing when they contain large amounts of legal jargon and unnecessarily long sentences. It makes the process of contract interpretation

significantly harder, more confusing, and slow; especially when it is carried out by someone outside of the business' legal team. At this point, contract abstraction becomes a necessary stage of the contract management process.

Contract abstraction plays an important role in law firms and businesses alike. It helps to digest long and complex documents, revamping them into a readable summary of key points. The process simplifies and facilitates the work of the legal team, while also allowing everyone in the business to understand and adhere to the contract.

This report is a detailed and comprehensive analysis for global Contract Abstraction Service market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Contract Abstraction Service market size and forecasts, in consumption value ($ Million), 2020-2031

Global Contract Abstraction Service market size and forecasts by region and country, in consumption value ($ Million), 2020-2031

Global Contract Abstraction Service market size and forecasts, by Type and by Application, in consumption value ($ Million), 2020-2031

Global Contract Abstraction Service market shares of main players, in revenue ($ Million), 2020-2025

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Contract Abstraction Service

To forecast future growth in each product and end-use market
