## Abstracts

The global Cordless Telephone market size is expected to reach \$ 143 million by 2029, rising at a market growth of -18.2% CAGR during the forecast period (2023-2029).

Global key players of cordless telephone include Vtech, Panasonic, Gigaset, Motorola, Philips, etc. The top five players hold a share about 88%. Europe is the largest market, has a share about 39%, followed by North America and Asia-Pacific, with share 33% and 23%, separately.

A cordless phone is a model of telephone which replaces the coiled wire between the handset and base unit with wireless radio technology. A cordless phone is not the same as a wireless phone, however. The handset must be returned periodically to the base unit for recharging, and the base unit must be physically connected to both a telephone line and an electrical outlet.
