Abstracts

Cosmetic Implants are substances placed under the skin or over the body to modify the beauty and physical appearance of an individual. Cosmetic implants are the specially designed medical devices which help individuals regain their appearance and aesthetically replace their damaged body parts after suffering from trauma or accidents. The implants can be placed subdermal or transdermal according to the type of surgical procedure. Cosmetic implants are prosthetics attempted to bring the desired portion of the body back to an acceptable aesthetic norm. Cosmetic implants have a wide applications in cosmetic industry providing higher psychological satisfaction to the people for decorative purposes. Tumor removal, laceration repair, maxillofacial surgery, scar revision and hand surgery are the common reconstruction procedures done by cosmetic implants. Breast augmentation continues to be the leading surgery technique while buttock augmentation, lower body lift and breast lift have shown rapid growth.

Scope of the Report:

This report focuses on the Cosmetics Implants in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The key drivers are technological advancements such as injectable fillers and gummy bear breast implants, emerging minimally invasive reconstruction surgeries, rising number of tooth deformities, congenital face disorders and increasing awareness of aesthetic appearance. Biological cosmetic implant is a highly profitable segment owing to the health benefits of biological materials over synthetic materials. Also, the demand for polymer implant devices, demand for aesthetic procedures, emergence of innovative products like two form-stable silicone gel breast implants and hyaluronic acid facial filler

are expected to boost the global cosmetic implants market in the forecast period. Rising awareness about safe inserts by empowering the female population to make wellness oriented decisions post breast cancer diagnosis will eventually impact the cosmetic implant market size.

The worldwide market for Cosmetics Implants is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
