Abstracts

According to our (Global Info Research) latest study, the global Cosmetics Safety and Efficacy Testing market size was valued at US\$ 576 million in 2025 and is forecast to a readjusted size of US\$ 1115 million by 2032 with a CAGR of 9.9% during review period.

Cosmetics Safety and Efficacy Testing is a rigorous scientific evaluation process designed to validate product safety and performance claims through toxicological assessments, stability testing, and clinical trials in compliance with global regulatory standards. Its advantages include high technical barriers, essential regulatory compliance, and the ability to enhance brand credibility through scientific validation. In 2025, the industry's average gross margin was approximately 35%. The upstream sector primarily consists of high-precision testing instruments, laboratory consumables, and chemical reagents, with representative suppliers including Thermo Fisher Scientific, Agilent Technologies, Waters Corporation, and Merck. The midstream focuses on the execution of physicochemical testing, microbiological analysis, toxicological safety assessments, and human efficacy trials to generate authoritative compliance reports. The downstream sector mainly encompasses cosmetics, oral care products, and sunscreen formulations, with representative customers including L'Oréal, Procter & Gamble, Estée Lauder, Unilever, and Shanghai Jahwa.

Cosmetics Safety and Efficacy Testing Market Outlook: The market for Cosmetics Safety and Efficacy Testing is shifting from a compliance checkpoint to a strategic growth driver. As regulations like the Complete Safety Assessment tighten, brands can no longer treat testing as an afterthought. Instead, it has become a critical tool for product differentiation and risk management. The industry is moving toward high-tech solutions, such as AI-driven screening and non-animal alternative methods, to speed up

development while ensuring safety. Companies that integrate testing early in the research and development process will gain a significant advantage, transforming the sector from simple quality control into a high-value engine for innovation.

This report is a detailed and comprehensive analysis for global Cosmetics Safety and Efficacy Testing market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Cosmetics Safety and Efficacy Testing market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Cosmetics Safety and Efficacy Testing market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Cosmetics Safety and Efficacy Testing market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global Cosmetics Safety and Efficacy Testing market shares of main players, in revenue (\$ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Cosmetics Safety and Efficacy Testing

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Cosmetics Safety and Efficacy Testing market based on the following parameters - company overview, revenue, gross margin,

product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include SGS SA (Switzerland), Intertek Group Plc (United Kingdom), Eurofins Scientific SE (Luxembourg), Bureau Veritas SA (France), UL LLC (United States), Centre Testing International (China), PONY Testing Group Co., Ltd. (China), China Certification & Inspection Group (China), Iwase Cosfa Co., Ltd. (Japan), Dermatest GmbH (Germany), etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

Cosmetics Safety and Efficacy Testing market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Classification of Cosmetics Safety and Efficacy Testing by Type

1.3.1 Overview: Global Cosmetics Safety and Efficacy Testing Market Size by Type: 2021 Versus 2025 Versus 2032

1.3.2 Global Cosmetics Safety and Efficacy Testing Consumption Value Market Share by Type in 2025

1.3.3 Clinical Research Services

1.3.4 Cosmetics Testing to Regulation

1.3.5 Allergen Screening

1.3.6 Microbiology Testing

1.3.7 Ingredients Testing

1.3.8 Others

1.4 Classification of Cosmetics Safety and Efficacy Testing by Sample Size

1.4.1 Overview: Global Cosmetics Safety and Efficacy Testing Market Size by Sample Size: 2021 Versus 2025 Versus 2032

1.4.2 Global Cosmetics Safety and Efficacy Testing Consumption Value Market Share by Sample Size in 2025

1.4.3 n
