Crepe paper, or cr?pe paper, is tissue paper that's been coated with sizing and then "creped" to create gathers. Sizing is a material such as glue, gelatin, gum, or starch, added to paper pulp or cloth to add sheen and stiffness, among other things. This gives the paper a distinct texture and feel, and one quite different from untreated tissue paper.

Crepe paper is popular for streamers and other party decorations, but it has other uses as well. Props and costume accessories can be made of this paper. It can be soaked in a small amount of water to create a dye for Easter eggs, white cardstock, and other materials. It can also be used to make paper flowers, applique?, and paper sculpture.

Crepe paper is sold in long narrow rolls — 1 7/8 inch and 2 inches wide in the US and 4.5 cm wide in the UK for streamers and such, as well as in sheets and "folds" — large

folded sheets. It is often made to be fire-resistant.
